### TES APPOINTS PAUL GOFFREDI AND DAVE RASSETT TO KEY LEADERSHIP POSITIONS

Fort Worth, TX, August 2, 2022 – Turbine Engine Specialists (“TES”), a leading provider of specialized MRO support on business jet engines and APU’s for scheduled and unscheduled maintenance, is pleased to announce the appointment of **Paul Goffredi as VP & GM of TES Operations** and **Dave Rasset** as **VP, TES Sales**, effective immediately.

In his role at TES, Paul Goffredi will continue to evolve TES Operations with particular focus on engine and APU maintenance that will be performed at TES’ Meacham Field facility and its new 35,000 sq. ft. location in Fort Worth and by its renowned field services provided by a team of remote technicians strategically located throughout the US. He will also oversee the many organic and inorganic growth opportunities that have been identified by TES.

As TES continues its growth journey, we are delighted to announce that Dave Rasset will be leading the Sales Team in the next phase of the company’s transformation. Dave skillfully managed TES Operations, over the last four years, through a period of unprecedented expansion and we are excited to see him applying the same rigor and discipline as the leader of TES Sales. These appointments help solidify the two key functions of Operations and Sales as we provide specialized services in the competitive engine and APU market segments.

Paul Goffredi joins TES with a distinguished record of past success in business aviation, with comprehensive knowledge and experience on engines and APU’s. Paul’s impressive resume includes his tenure at VSE Aviation as President & COO, and several senior positions held at the Killick Aerospace Group, Dallas Airmotive, Standard Aero and Aviall. He joins TES at an opportune time with business aviation experiencing increased popularity and customer demand and with his industry and operations knowledge he will help position the company to execute on an increasing level of output.

On his new appointment, Paul Goffredi, VP & GM, TES Operations, comments:

“I am honored and thrilled to join the TES Leadership Team. TES’ growth has been impressive over the past two years, and we will continue along that trajectory as we further refine our operational excellence to meet the increased demand of our valued customers and OEM Partners.”

On his new role in the leadership team, Dave Rasset, VP TES Sales, comments:

“I am proud of the transformation that TES has made in the last few years, we are a very different company today! I am very excited about getting back in Sales, reconnecting with Customers on a different level and leading the team on the next phase of our growth journey. Despite the significant growth over the past few years, I do feel that TES’ best years are still ahead of us.”

On the appointment of Paul and Dave, Bill Molloy, COO of the Killick Aerospace Group, comments:

“TES is an extraordinary business focused solely on engine and APU maintenance services. To help manage the next phase of the TES strategic plans it was essential to strengthen the leadership team and with the appointments of Paul and Dave, in these key leadership positions, I am confident that we will successfully execute on our strategic roadmap. These are indeed exciting times for TES!!”

## **About TES**

TES, a Killick Aerospace Group company, was founded in 2001, with headquarters in Fort Worth, Texas, is authorized by Honeywell and General Electric. TES focuses solely on providing specialized MRO scheduled and unscheduled maintenance services on engines and APU’s for business jets, specifically on the HTF7xxx, TFE731 (Classics and NG), CF34 and CFE738 engine model types. TES also has full repair and overhaul capabilities on the 36-100/150, RE100 and RE220GX APU model types. They own, and manage, the 36 Series APU Rental Bank with over 220 APU’s in their pool to support MSP and non-MSP rental requirements. Lastly, TES has a team of remote technicians providing field services throughout the US on all these engine and APU model types.
